

Unlock Peak Performance

90XL Calibration and Repair Services

WHY CHOOSE MESA LABS FOR YOUR 90XL CALIBRATION AND REPAIRS?

At Mesa Labs, we understand the critical role accuracy and precision plays in caring for dialysis patients. That's why we're proud to offer unrivaled calibration and repair services for your 90XL device.

Did You Know?

90XL devices must be calibrated and serviced annually by Mesa Labs to maintain medical device compliance requirements, which includes traceability and compatibility of components⁴. Mesa Labs has not trained nor authorized any third party service provider on calibrating and servicing 90XL.

HERE'S WHY ENTRUSTING MESA LABS IS THE ONLY SMART CHOICE:

Accurate and Precise Factory Calibration¹:

- + Multi-point calibration
- + Comprehensive adjustments
- + ISO 17025 Accreditation¹
- + ISO 13485 Certification¹

Expert Repairs for Optimal Performance:

- + Minimize downtime to maintain operational efficiency²
- + Use of genuine parts compatible with 90XL
- + Extend the life of your device to minimize lifetime ownership cost and to protect your assets³

Introducing Our New Service Offering

Elevating Your Experience

WE'RE EXCITED TO ROLL OUT A COMPREHENSIVE SERVICE APPROACH

Designed to enhance customer satisfaction and to streamline your experience with Mesa Labs.

Faster Turnaround Times:

Time is of the essence. Swift servicing ensures your equipment is back in action promptly.

Transparent Communication:

Gain insight into the status of your equipment, making informed decisions for your operations.

Traceable Standards:

- + Mesa Labs follows the NIST Traceable Reference Standard¹
- + Detailed, as-found test and results reporting
- + Factory certified multi-point calibration and adjustments

1. Mesa Laboratories, Inc is ISO 17025 and ISO 13485 certified and adheres to the ISO guidelines: ISO/IEC 17025:2017 General requirements for the competence of testing and calibration laboratories and ISO 13485:2016 Medical devices – Quality management systems – Requirements for regulatory purposes.
