

# Take advantage of our new pHOenix XL Module Replacement Program!

Part number 36-0031X

There are 4 options to choose from. Here is how to get started:

1. Pick a Payment Option	Paid in Full		Paid Annually	
	2. Pick a Plan Length	2 years	3 years	2 years
3. Total Payment Due	\$734	\$1,027	\$932	\$1,326

Compare this to the retail cost of a single replacement module at \$489!

It is more cost-effective when you choose the Pay in Full option. If you select the Pay Annually option, here is how the cost breaks down over time:

## 2-Year Annual Payment Plan

	Year 1	Year 2
Annual Payment Amount:	\$466	\$466
Total Cost Over 2 Years:	\$932	

## 3-Year Annual Payment Plan

	Year 1	Year 2	Year 3
Annual Payment Amount:	\$442	\$442	\$442
Total Cost Over 3 Years:	\$1,326		

When your module needs replacement, please contact Mesa Labs at [techsupport@mesalabs.com](mailto:techsupport@mesalabs.com) with:

- + subject line: "pHOenix XL Module Replacement Program"
- + the serial number of your module "PXM#####"
- + your shipment address

**Terms & Conditions:** Modules are replaced as needed free of charge anytime during the offer length. Each plan covers the modules for one meter. If your location has multiple pHOenix XL meters, a plan is needed for each meter, as desired. The two-year option will be effective two years from the date of purchase. The three-year option will be effective three years from the date of purchase. If either of the Annual Payment Plan options are selected, you will be billed each year.
